

# Zoolz Reseller Quick Start

---

This document discusses the steps of branding, creating plans adding accounts and managing accounts for reseller. In order to go through the steps of this document please Log in to your reseller profile via the link below:

<https://www.zoolz.com/reseller/signin>

The dashboard is titled "Dashboard" and contains several widgets:

- Home Accounts:** Shows 0 Suspended and 0 Active accounts. Includes a "Manage Accounts" link.
- Business Accounts:** Shows 5 Total, 5 Left, and 0 Suspended accounts. Includes a "Manage Accounts" link.
- Payment:** Shows "Payment due on 6/18/2014" and an "Upgrade" link.
- Cold Storage:** Shows 0 B used out of 5 TB. Includes a "Buy more storage" button.
- Instant Storage:** Shows 0 B used out of 500 GB. Includes a "Buy more storage" button.
- Links:** A list of links: "Add Accounts", "Create Plans", "My Account", and "Download API Documentation".

As soon as you log in, you will land on the dashboards page where you can view the most important information.

# 1 Branding

After you sign in, click on the Branding tab

The screenshot shows the Zoolz Reseller interface. On the left is a navigation menu with options: Training Center, Dashboard, Accounts, Plans, Branding (highlighted), Reports, Upgrade, Settings, Billing Info, and Sign out. The main content area is titled 'Branding' and contains two sections: 'Company' and 'Sub domain'. The 'Company' section has four input fields: Brand Name (Your Brand Name), Application exe Name (You Application EXE Name), Website address (https://company621.web-backup.net/signin), and Support Email (https://company621.web-backup.net/contact). The 'Sub domain' section has a 'Sub domain' label and two input fields: 'company621' and a dropdown menu showing 'web-backup.net'. At the top right of the main area are two buttons: 'Save and Rebuild Setup' and 'Download Setup'.

In the branding tab you will have 7 sections (Company, sub domain, email, website, software, links and digital signature); this document will go through these 7 sections

## 1.1 Company:

In this section; you will be able to add you Brand name, and the application setup file name, the website address and support email will be updated automatically from section 2 “Sub Domain: once entered.

This section shows a detailed view of the 'Company' branding configuration. It includes a blue header with the word 'Company'. Below the header is the text: 'This information will be displayed on the customer's web console and software'. There are four input fields: 'Brand Name' with the value 'Your Brand Name', 'Application exe Name' with the value 'You Application EXE Name', 'Website address' with the value 'https://company621.web-backup.net/signin', and 'Support Email' with the value 'https://company621.web-backup.net/contact'.

## 1.2 Sub Domain

These sections mainly customize the login page for your clients, if you have bought full branding along with “Use your own Domain” feature, this will allow you to have your own domain instead of “web-backup.net” in other words you can have your log in page as “Cloud.yourdomain.com” or “backup.yourdomain.com” or any other name you wish to have.

Once you enter the subdomain name; it will be reflected on the Website address and support emails fields in the company section.

If you purchased “Use your own domain” feature the drop list next to the subdomain field will have your domain as an option (after you provide us with your domain name, desired sub domain name, SSL certificate with private and public keys).

### Company

This information will be displayed on the customer’s web console and software

Brand Name:	<input type="text" value="Your Brand Name"/>
Application exe Name:	<input type="text" value="You Application EXE Name"/>
Website address:	<input type="text" value="https://yourbrandname.web-backup.net/signin"/>
Support Email:	<input type="text" value="https://yourbrandname.web-backup.net/contact"/>

### Sub domain

Please enter the sub domain of your client’s web console

Sub domain:	<input type="text" value="yourbrandname"/>	<input type="text" value="web-backup.net"/>
-------------	--	---

## 1.3 Email

This section is mainly for the invitations and activations email, you can add the Sender’s display name and the actual email address that your account activation emails will be automatically sent from, click on validate email, you will receive an email on the provided email address, the email contains a link to validate your email.

**Note:** You must validate your email in order for automated emails to reach your customers

### Email

Specify the sender’s name and email you would like the system emails to be sent in

Sender’s name	<input type="text" value="Zoolz Guide"/>
Sender’s email	<input type="text" value="guide@zoolz.com"/>

[Validate Email](#)

## 1.4 Website

The website section customizes the login page for your clients along with their Business profile under your account.

Current tray icon: 

## 1.6 Links

The Links section customizes the URLs related to your product and service, as shown in the image below, all links are customized via the brand name you choose, if you have purchased “Use your own domain” feature, you can have your domain name instead of web-backup.net.

### Links

These links should be redirected to your site when the user clicks on them in the program

Website	<input type="text" value="https://Your Brand Name.web-backup.net/signin"/>
Contact Sales	<input type="text" value="https://Your Brand Name.web-backup.net/contact"/>
Contact Support	<input type="text" value="https://Your Brand Name.web-backup.net/contact"/>
Online Help	<input type="text" value="https://Your Brand Name.web-backup.net/faq"/>
Upgrade	<input type="text" value="https://Your Brand Name.web-backup.net/contact?q=U"/>
Create Account	<input type="text" value="https://Your Brand Name.web-backup.net/contact"/>

## 1.7 Digital Signature

This section is for applying your organizations name on the digital signature of the setup file, you will need to provide us with a code signing certificate; a different type of certificate than the SSL certificate mentioned in Section B

### Digital Signature

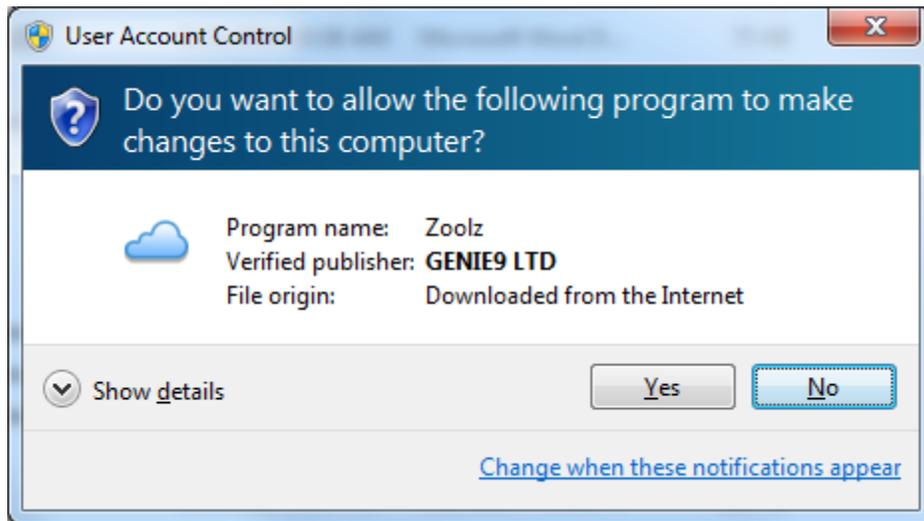

The signature will be used to sign the main software executables and the setup The digital signature must be .pfx or .p12

- Use Web-Backup's Digital Signature.
- Use my digital signature.

Digital Signature:  No file chosen

Digital Signature Password:

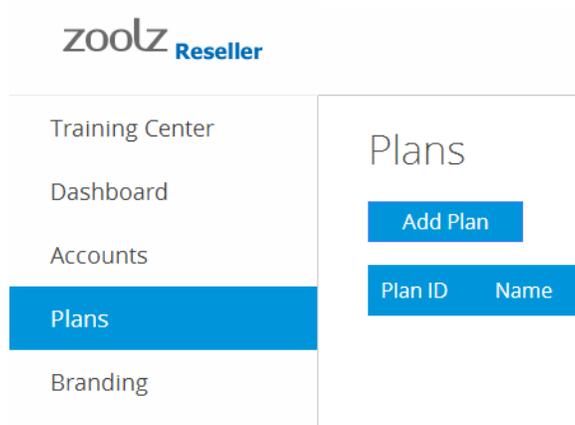

Once you upload the digital signature file, your organization name will show next to the Verified publisher (Genie9 in this Image)

# 2 Plans

---

Once you are done with the branding, you can create the plans you wish to offer to your clients, to add a plan click on "Plans" from the left pane, then click on the add plan button

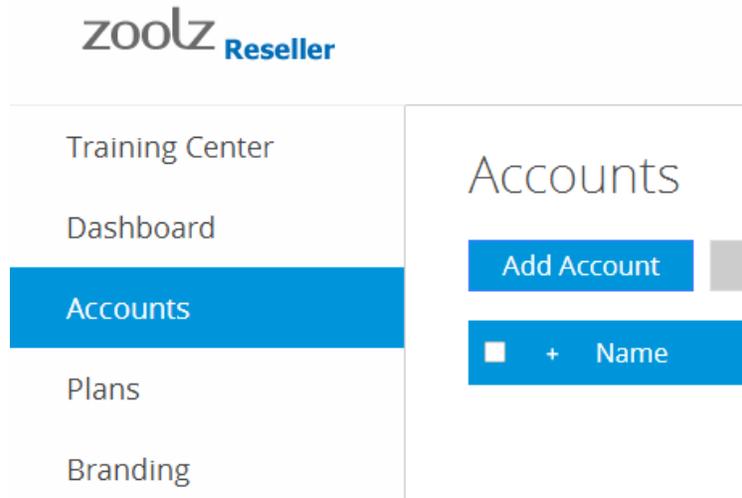

Once you click on the Add plan button a new window will pop up, you can select the typ of the plan (home / business), you can add the frequency of the plan (Trial 14 days, monthly, yearly or lifetime, then you can set the amount of available cold storage and instant storage for the plan, after that you can add the number of users and servers (unlimited from our side) then click on Add plan.

### Add Plan ✕

Type	<input type="text" value="Business"/>	
Frequency	<input type="text" value="Please select"/>	
Cold Storage (GB)	<input type="text"/>	<input type="checkbox"/> Unlimited
Instant Storage (GB)	<input type="text"/>	
Number of Users	<input type="text"/>	
Number of Servers	<input type="text"/>	
Plan Name	<input type="text" value="Business--Cold Storage--Instant--Users--Servers"/>	

# 3 Accounts

After creating the plan(s), you will need to create an account for each home and business account you will sell, click on accounts from the left pane, and then click on Add account

Once you click on the Add account button, a new window will pop up where you can add the account name (company name or home user name, add the email address related to the account, enter account password (in order to log in to your system) and set the plan for this account. then click on add account.

The image shows a 'Add Account' form window. It contains the following fields: 'Name' with the value 'Zoolz Test'; 'Company name' which is highlighted in yellow; 'Email' with the value 'test@zoolz.com'; 'Password (optional)' with masked characters '\*\*\*\*\*' and a checkbox for 'Don't send email to user'; 'Confirm Password' with masked characters '\*\*\*\*\*'; and 'Plan' with a dropdown menu showing 'Home-20-Cold Storage-20-Users'. Below the plan dropdown is an 'Add Plan' link. A blue 'Add Account' button is located at the bottom right of the form.

# 4 You are done

---

Congratulations, you now have your own cloud backup solution; you can set your prices, start selling and make money.
